EDUCATION

McGill University | *Bachelor of Engineering*

Montreal, QC

Software Engineering Co-op

August 2023–August 2027

- **Hugh Brock Scholarship**

Key Courses: Object-Oriented Programming (OOP), Algorithms & Data Structures, Software Testing, Agile

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, C++, JavaScript, Bash, TypeScript, SQL
- **Backend & Databases:** Spring Boot, Spring Data JPA, MyBatis-Plus, REST APIs, MySQL, PostgreSQL
- **Frontend:** React, TypeScript, Ant Design Pro, HTML, CSS
- **Tools:** Git, SVN, Maven, Gradle, Swagger, Linux, IntelliJ IDEA, VS Code, Eclipse, PowerDesigner

WORK EXPERIENCE

Eastcompeace Technology Co., Ltd

Zhuhai, China

Software Developer Intern

May 2026 – Aug 2026

- Developed a full-stack Meal Ticket Management System using Java, Spring Boot, React, TypeScript, MySQL, and REST APIs, implementing application, collection, usage, and device-management workflows.
- Integrated physical smart-card readers with the web application, enabling real-time employee identification and automated meal-ticket collection and usage confirmation.
- Diagnosed and resolved issues across frontend, backend, database, network, and hardware components through API, integration, and end-to-end testing.
- Collaborated with my supervisor to translate business requirements and iterative feedback into functional and UI improvements, strengthening system usability and reliability.

Jiantai Construction Co., Ltd

Zhuhai, China

Software Developer Intern

May 2024 – Aug 2024

- Enhanced Java-based ERP functionality integrated with Oracle systems, streamlining internal business workflows and supporting day-to-day enterprise operations.
- Automated Excel file classification and report generation through AI-assisted scripting, reducing manual processing.

PROJECTS

Flight Management Platform

Montreal, QC

Academic Project — McGill University

Sep 2025 – Dec 2025

- Designed and implemented a flight management platform supporting flight scheduling, crew assignments, and customer workflows through RESTful services.
- Modeled relational data with PostgreSQL and Spring Data JPA and built an interactive JavaScript interface based on Figma prototypes.

Fire detection and extinguishing robots

Montreal, QC

Academic project — McGill University

Jan 2025 – Apr 2025

- Engineered an autonomous fire-detection and extinguishing robot using LEGO motors, DPM hardware, and multiple sensors for environmental detection and response.
- Programmed sensor-driven navigation and obstacle-avoidance algorithms in Python, enabling autonomous movement through the test environment.

LEADERSHIP EXPERIENCE

High School Tutor

Online

A-Level/IGCSE Tutor

Aug 2023–Present

- Mentored students through personalized study plans, progress tracking, and targeted feedback, strengthening problem-solving skills and academic confidence.
